

# Tanu Rai

Pathankot, Punjab, India — [tanurai9857@gmail.com](mailto:tanurai9857@gmail.com) — +91 78370 94381 — [GitHub](#) — [Portfolio](#)

## Professional Summary

---

Frontend Developer with a Master's in Computer Applications specializing in React.js and modern frontend engineering. Experienced in building high-performance, pixel-perfect web interfaces using scalable component architectures and state management solutions. Proven ability to translate Figma designs into production-ready code, implement SSR/SSG-ready patterns, and optimize frontend performance. Skilled in frontend API integration and data visualization.

## Technical Skills

---

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Java

**Frontend Frameworks:** React.js, Tailwind CSS, Framer Motion, Chart.js

**State Management:** Zustand, Context API, React Hooks, Redux patterns

**Frontend Integration:** REST API consumption, GraphQL queries, Third-party API integration

**Tools & Practices:** Git, Vercel, Webpack, Code Splitting, Lazy Loading, Performance Optimization

**Core Competencies:** Component-Driven Development, Responsive Design, Accessibility (WCAG), Agile/Scrum

## Experience

---

### Process Associate II

*IDS Infotech Pvt. Ltd.*

Jan 2023 – Jun 2025

Mohali, Punjab

- Resolved 500+ high-priority data discrepancies under strict 24-hour SLAs with 100% accuracy
- Recognized as Top Performer 2024 for exceeding quarterly KPIs by 25%
- Applied root-cause analysis to identify recurring data errors, reducing repeat discrepancies by 30% across monthly reports
- Collaborated with 3 cross-functional teams to implement data validation checks, improving audit pass rates by 20%

## Projects

---

### AI Interview Experience Simulator

— React, Zustand, TypeScript, Tailwind, Framer Motion 2025

- Live Demo: [ai-interview-experience-simulator.vercel.app](https://ai-interview-experience-simulator.vercel.app)
- Architected and deployed a production-ready AI interview simulator supporting 10+ dynamic interview flows with real-time feedback and scoring
- Implemented scalable Zustand-based state architecture to manage concurrent interview sessions, reducing state-related bugs by 40%
- Designed modern SaaS-style UI featuring dark mode support, fluid animations, responsive layouts optimized for mobile and desktop, achieving 95+ Lighthouse performance score
- Achieved 95+ Lighthouse score via code-splitting and lazy loading (40% faster load time)

### Pixy Weather Dashboard

— React, OpenWeather API, Context API, CSS3

2025

- Live Demo: [pixy-weather.vercel.app](https://pixy-weather.vercel.app)

- Developed scalable weather dashboard delivering real-time environmental data including AQI, wind conditions, atmospheric pressure, sunrise/sunset times, and 7-day forecasts for global locations
- Integrated multiple OpenWeatherMap API endpoints with efficient caching strategy, reducing API calls by 60% and improving response time through debounced search functionality
- Delivered responsive, mobile-first UI with smooth animations

## Education

---

### **Lovely Professional University**

Master of Computer Applications (MCA)

Punjab, India

2022 – 2024

### **Smt. Rama Chopra College**

Bachelor of Computer Applications (BCA)

Pathankot, Punjab

2019 – 2022

## Certifications & Achievements

---

- HackerRank Certified: JavaScript (Intermediate)
- Coding Ninjas Certified: Data Structures, Java, Object-Oriented Programming
- Top Performer of the Year 2024: IDS Infotech Pvt. Ltd.
